Operating Rules

Introduction

These rules refer to the Moriesian Horse Registry (MHR). The term "Registry" refers to the MHR, Registrar of the Registry and to appointed representatives.

The main objective of the Registry is to register and maintain an official registry of the Moriesian horse. The Registry may refuse to register any horse if that registration will not aid, promote, and foster the objectives of the Registry as stated in these rules.

The MHR philosophy is based on honesty and integrity. The organization trusts that breeders, owners, lessees and sellers will provide accurate information. Any member or any person signing registration or transfer documents agrees to uphold the following rules.

RULE 1 Registration Eligibility

SECTION 1 First Generation 'F' (Foundation) Moriesian Registration

This division applies to any Moriesian resulting from a Friesian to Morgan cross. The qualifying requirements are as follows.

1. The sire is a purebred Friesian or Morgan stallion. Proof by pedigree or copy of the original registration and breeder's notarizing application.
2. The dam is a purebred Friesian or Morgan. Proof by pedigree or copy of the original registration.
3. DNA testing is required for all Moriesian stallions and mares (breeding stock). Geldings are excluded from requirement, though recommended for showing.

SECTION 2 Moriesian 'M' Registration

This division applies to the foal or horse from a Moriesian sire and Moriesian dam. The qualifying requirements are as follows.

1. Both horses are registered with the MHR.
2. DNA typing and parentage verification.

SECTION 3 Three Quarter Moriesian Registration

This division applies to the foal or horse resulting from a Moriesian to either Friesian or Morgan cross = 75% / 25% Moriesian. MHR Moriesians cannot exceed 75% Friesian or Morgan documented bloodlines, or have less than 25% Morgan or Friesian documented bloodlines to be registered. The qualifying requirements are as follows:

3. The Moriesian sire or dam is registered with the MHR.
4. DNA typing with parentage verification.

RULE 2 Registration Requirements

Any Moriesian previously Registered with the original 'Morisian Horse Registry' may be re-Registered at no cost by completing the registration application and submitting photocopies of the original certificate and pedigree.

- A. All applications must be accurately and correctly completed and will include a Certificate of Service signed and notarized by the recorded owner (or lessee) of the stallion at time of service.

Exceptions to notarization: Notarization may be waived if the stallion is listed with the MHR as a Breeding Stallion or if there is a Stallion Report covering the year in which the horse was conceived on file with the Registry.

- B. A completed transfer application is required if the foal is to be recorded in a name other than the owner of the dam at time of foaling.

The burden of proof is the responsibility of the applicant. The Registrar reserves the right to deny any application and to remove any horse that does not meet the MHR requirements from the Registry.

RULE 10 Cancellation of Registration

The Registry reserves the right to cancel the registration of a horse if it finds that the horse does not meet the requirements for registration or that a horse identified as the subject of a registration certificate is not the subject of that certificate. Procedure will depend on the circumstances of each incident, and may result in cancellation of entries made with respect to the descendants of that horse as well. The owner will be responsible to provide necessary documentation of proof as required by the Registrar.

RULE 11 Liability

The Moriesian Horse Registry and any appointed representatives will not be held liable for any action or failure to act in connection with the Registry.
